OBJECTIVE

Objective As a third-year Computer Science student and a Full Stack Developer specialized in .NET, I thrive on building efficient, scalable, and user-friendly applications. With a solid foundation in .NET development, C#, SQL Server, and API integration, combined with front-end expertise in HTML, CSS, JavaScript, and Bootstrap, I also focus on creating responsive media screen designs. I am eager to apply my skills in a dynamic environment where I can contribute to innovative projects and grow as a developer.

Experience

Full Stack Developer (Academic & Personal Projects)

specialization in computer science

- Developed and optimized RESTful APIs using .NET Core and C#.
- Designed and implemented relational databases using SQL Server.
- Built and deployed back-end systems for web applications.
- Created responsive front-end interfaces using HTML, CSS, JavaScript, and Bootstrap.
- Applied problem-solving skills to debug and enhance application performance.

EDUCATION

Currently pursuing a Bachelor's Degree in Computer Science (Third Year).

at modern university

Full Stack Development Course

July 2023 - Present
- Completed a comprehensive Full Stack Development course, covering both front-end (HTML, CSS, JavaScript, Bootstrap) and back-end (C#, .NET, SQL Server, API development).
- Gained hands-on experience in developing end-to-end applications and solving real-world problems.

CERTIFICATES

Front end from Microsoft partner
html ,css, java script ,bootstrap

ASP.NET from Microsoft partner
Devolping asp.net web application

ASP WEB APIS from Microsoft partner
ASP .core web APIs
